

BATH/GROOM FORM

Owner's Name: _____ Cat's Name: _____

Today's Phone: _____ Last Meal?: _____ a.m. or p.m.

Is your cat on any medication? Y or N If yes, what and when last given: _____

BATH OPTIONS (Please check box of your choice)

	Flea Shampoo ~This 10 minutes soak in Adams Flea Shampoo will kill all fleas on your cat. But for residual protection we recommend applying Advantage once your cat is dry.
	Cleansing Shampoo ~ A gentle cleansing shampoo that smells great. Strawberry, Peach, or Mango.
	<i>A toe-nail trim is included with all baths.</i>

GROOMING OPTIONS

If we find mats on your cat we will try to comb them out, but if this becomes too uncomfortable for your cat we would like the option to shave them out.

	Yes, you may shave mats if necessary. I realize that this may leave a patchy appearance.
	No, if unable to comb out the mats, leave them. I realize that you may be unable to bathe my cat because of matting.
	Comb out only. Sedation may be required.
	Sanitary clip. A sanitary clip is a circle of fur shaved from under your cats' tail to aid in comfort and cleanliness.

SEDATION/ANESTHESIA

We will always try to bathe or groom your cat without anesthesia. However, if the procedure is too traumatic for your cat we may advise sedation.

	Yes, anesthetize my cat if needed. (For your cats' health, an exam may be needed at an additional fee.)
	No, do not anesthetize my cat. I understand you may need to halt the bath/groom and that a partial groom and board fee will still apply.

LION CUT

A lion cut is a full-body shave, leaving fur on the head, feet, and tail. Many cats require full anesthesia due to the length of time necessary to sit still. (45"-90")

I request a lion cut YES NO (Please circle one)
